ULTIMATE SOLUTION FOR MANAGEMENT AND DECISION MAKING

What offers?

- GHG Emissions Inventory
- Energy Baseline
- Goals and Targets
- Metrics and Follow-Up
- High Level Reports

Advantages

- Web Access and Operation
- Intuitive
- Comprehensive
- Scalable

BENEFITS

Management

- Know-how internalization
- Staff work load reduction
- Real-time follow-up and decision making
- Planning and Strategic Analysis
- Faster internal and third parties communication

Economic

- Cost reduction
- Minimization of external advisors need
- Optimization of execution time
- Re-processing elimination

LEAF SUSTAINABLE
INNOVATION

TOWARDS A LOW
CARBON AND
ENERGY ECONOMY
